ATLANTA ARTCC AND INDIANAPOLIS ARTCC
LETTER OF AGREEMENT

SUBJECT: INTERFACILITY COORDINATION **EFFECTIVE: 11 July, 2024**

---

1. **PURPOSE:** This agreement establishes coordination procedures and defines delegation of airspace between VATUSA Indianapolis ARTCC (ZID) and VATUSA Atlanta ARTCC (ZTL). This agreement is supplemental to procedures contained within FAA Order 7110.65.
2. **DISCLAIMER:** Information contained herein is designed specifically for use in a virtual air traffic control environment. It is not applicable, nor should it be referenced for live operations in the National Airspace System (NAS).
3. **RESPONSIBILITIES:** ZTL delegates to ZID the responsibility for the control of IFR aircraft within the area depicted in Attachment C ("I26 SFC-100").
4. **GENERAL:**
    a. Specific routes and altitudes must be assigned for arrivals and departures as depicted in Attachment A and Attachment B.
    b. Either Center may vector aircraft up to 15 degrees without prior coordination provided the aircraft is within 15 miles of the boundary. Heading information forwarded via fourth line supersedes control for turns authorized in the agreement.
5. **DEFINITIONS:**
    a. "Even" and "odd" altitudes refer to normally "westbound" and "eastbound" altitudes. ***EXAMPLE****- FL360, 380, 400, 430, 470, etc qualify as "even" altitudes. FL370, 390, 410, 450, etc qualify as "odd" altitudes.*
    "RAFDOF" means "Right (Correct) Altitude for Direction of Flight".
    "↓ XXX" means descending to/assigned XXX altitude.
